It's the LAW! It's fast and it's FREE!!!

What do you mean FREE?

When you contact MISS DIG 811, the public facility companies are notified to mark the location of their underground lines.

Public facilities are marked for FREE by facility company representatives known as Locators. The Locators paint lines and/or place flags to mark the approximate location of underground public lines.

TO PLACE A DIG NOTICE

- Visit elocate.missdig811.org
- In the e-Locate box click Start.
- Complete the e-Locate Request.
- Check your status before you dig @[status.missdig811.org](https://twitter.com/status.missdig811.org)

- Enter your ticket #. Click Inquire.

Those painted lines usually run from the main facility to the meter on your house.

Not everything gets marked when you call. Private facility lines are **NOT** marked.

The unmarked private lines usually run from the house to any other building or object with service in your yard, like a garage or lamp post. A private locator may be hired to mark them.

And often, water and sewer lines are only marked in the right-of-way not all the way to the meter on the house.

It's the LAW?

Yes, a bill was signed by Gov. Rick Snyder and has been in effect since April 1, 2014. Be smart and contact **MISS DIG 811** before you dig.

Why so many flags? What do they mean? Can I remove them?

Do **NOT** remove the flags until the work is completed or after 21 days.
